Introduction

Forward

During 2018-2019, Jewish Hospital Shelbyville conducted its FY2020-22 community health needs assessment (CHNA) to support its mission to enhance the health of people in the communities it serves by identifying health needs in these communities and prioritizing the allocation of hospital resources to meet those needs. This implementation plan strategies (IS) document, developed from April-June 2019, serves as an accompaniment to that report by identifying the strategies that Jewish Hospital Shelbyville will employ from FY2020-22 to address the needs identified in the most recent CHNA. In addition, the completion of this report and subsequent approval and adoption by the KentuckyOne Health Board of Directors complies with requirements mandated by the Patient Protection and Affordable Care Act of 2010 and federal tax exemption requirements.

Executive Summary

The implementation strategies process involved the following steps:

- KentuckyOne Health Healthy Communities team created an inventory of hospital-level and system-level strategies that were already in place to address the applicable health needs.
- Jewish Hospital Shelbyville leaders reviewed the inventory, evaluated continuation of current strategies and added additional strategies where appropriate.
- The Healthy Communities team consulted with KentuckyOne Health system-level leaders to include in the inventory applicable strategies occurring on behalf of all KentuckyOne Health hospital communities, including that of Jewish Hospital Shelbyville.
- A final list of appropriate strategies was prepared.
- The goals, objectives and strategies for addressing each identified health need are listed below.
- This report will be made public and widely available on or before November 15, 2019.

Organization Description

Jewish Hospital Shelbyville, part of KentuckyOne Health Louisville Region, is located on the Colonel Harland D. Sanders Medical Campus. For more than 110 years, the community hospital has served as a vital resource to residents of Shelby, Henry and Spencer counties. The hospital offers a full range of comprehensive services, including 24/7 emergency care, transitional care, diagnostic and medical imaging, cardiac rehabilitation, general surgery, endoscopy, gastroenterology, orthopedic care, pain management, sleep medicine, clinical laboratory and pharmacy, and more.

KentuckyOne Health's Louisville Region includes hospitals, physician groups, clinics, primary care centers and specialty institutes. Our facilities provide patients and their families in the Greater Louisville Area with a wide array of patient care services ranging from high-tech tertiary and rehabilitative care available at Jewish Hospital and Frazier Rehab Institute on the downtown

medical campus, to inpatient acute care and outpatient services available in community settings at Sts. Mary & Elizabeth Hospital, Jewish Hospital Shelbyville and Medical Centers Jewish East, Northeast, South and Southwest. All the Louisville Region facilities are committed to continuing the legacy of care that has been provided to patients in this area for over a century.

Community Served

KentuckyOne Health's Louisville Region includes hospitals, physician groups, clinics, primary care centers and specialty institutes. Our facilities provide patients and their families in the Greater Louisville Area with a wide array of patient care services ranging from high-tech tertiary and rehabilitative care available at Jewish Hospital and Frazier Rehab Institute on the downtown medical campus, to inpatient acute care and outpatient services available in community settings at Sts. Mary & Elizabeth Hospital, Jewish Hospital Shelbyville and Medical Centers Jewish East, Northeast, South and Southwest. All the Louisville Region facilities are committed to continuing the legacy of care that has been provided to patients in this area for over a century.

Geographic Area

For the purposes of the CHNA, Jewish Hospital Shelbyville has defined Shelby County as the primary service area. Shelby County will serve as the unit of analysis for the CHNA and health needs discussed will pertain to residents of this county.

Population

Understanding the population demographics of the community served by Jewish Hospital Shelbyville helped the hospital team understand characteristics unique to the community and can impact the identification of health needs. Notable for Shelby County is the continued rapid increase in population and, in comparison to the Kentucky overall, is the high Hispanic/Latino population.

Target Population for Implementation Strategies

The target population in the Implementation Strategy plan are the "Broader Community," those "Living in Poverty" and the "Most Vulnerable Population," including persons with disabilities, racial, cultural and ethnic minorities; this corresponds with federal community benefit reporting requirements.

Significant Health Needs Identified in CHNA

Criteria Used to Identify Priorities

Jewish Hospital Shelbyville hosted the CHNA steering committee meeting for members of the panel to review findings from the community surveys and county-specific secondary health data.

The process of priority selection followed the Association for Community Health Improvement (ACHI) recommendations to consider:

- The magnitude of the problem (i.e., the number of people or the percentage of a population impacted).

- The severity of the problem (i.e., the degree to which health status is worse than the national norm).
- A high need among vulnerable populations.
- The community's capacity/willingness to act on the issue.
- The ability to have a measurable impact on the issue.
- Community resources already focused on the issue.
- Whether the issue is a root cause of other problems.

Members of the committee discussed the findings and based on all of the information, identified the following as areas of need to address in the next three years:

- Tobacco, alcohol and drug abuse
- Access to care
- Obesity

Final Priority Health Needs

In May 2019, the leadership team at Jewish Hospital Shelbyville gathered to review the needs identified by the CHNA Steering Committee. The team discussed each of the needs and identified where they believed the hospital had the greatest opportunity to make marked improvement. Leadership accepted and supported the recommendations of the CHNA Steering Committee and will address priorities as listed above.

Significant Health Need(s) Not Addressed

All top priorities identified as needs will be addressed.

Implementation Strategy Process

Development of Implementation Strategies

During the development of the CHNA, there were conversations at the hospital level and at the KentuckyOne Health system level about recognizing the many strategies already in place to address community needs. It was vital to develop a thorough understanding of current strategies and determine where additional strategies were needed to respond to community need. This involved researching current strategies reported in CBISA (Community Benefit Inventory for Social Accountability – the community benefit reporting system used by KentuckyOne Health), evaluating the current community health needs assessment and garnering information from the hospital leadership team.

In May-June 2019, Jewish Hospital Shelbyville leaders met to review this inventory and evaluate it for their commitment to continuation of these strategies. Strategies that proved to be ineffective, inefficient or did not demonstrate best practices were discussed to ensure resources were linked with proven strategies. Additional strategies were added per the leadership brainstorming session.

The next step in the implementation strategy process was reviewing system-level strategies that were occurring on behalf of Jewish Hospital Shelbyville. The KentuckyOne Health Healthy Communities team consulted with KentuckyOne Health leaders to include in the inventory applicable strategies occurring on behalf of all KentuckyOne Health hospital communities,

including that of Jewish Hospital Shelbyville. The system-level strategies were shared by leaders representing these KentuckyOne Health/CHI Saint Joseph Health services:

- Cancer Care
- Clinical Services
- Food and Nutrition Services
- Nutrition and Diabetes
- CHI Saint Joseph Health Foundations/CHI Saint Joseph Health Grants Office
- Public Policy and Advocacy
- Strategy and Business Development
- Mission

Strategies from both the hospital and system levels were grouped and overall goals were developed around the intended outcomes of the strategies. At least one goal is attached to each identified health need with strategies linked to each goal.

Strategies to Address Significant Health Needs

Jewish Hospital Shelbyville identified needs goals, objectives and strategies are below:

Tobacco, Alcohol and Drug Abuse

Goal: Address tobacco, alcohol and drug abuse from a KentuckyOne Health system-wide approach, including working upstream to address issues that underlie substance abuse, a primary prevention to alcohol and drug use.

Outcome Objective: To decrease tobacco, alcohol and drug abuse as measured by Centers for Disease Control and Prevention and County Health Rankings and Roadmaps. (KY is #2 in the nation for tobacco use at 24.6%; and #1 in cancers tied to smoking.) According to the CDC, in 2017, Kentucky ranked 5th in the nation for the highest rates of death due to drug overdose (37.2 per 100,000). Also, Kentucky had statistically significant increases in drug overdose death rates from 2016-2017.

Strategies will be accomplished through participation and collaboration with community partners. Information about available resources will be provided with each opportunity.

Strategies – Tobacco Abuse

- Advocate for smoke-free schools, workplaces and public places.
- Advocate for increasing the cigarette tax.
- Advocate to increase the age to 21 for purchase of tobacco products.
- Promote and encourage lung screenings for cancers associated with tobacco use. (Lung cancer is the most common cancer in men and women in the United States.)
- Enforce Tobacco-Free Campus policy.
- Partner with North Central District Health Department to provide information about smoking cessation classes and 1-800-Quit-Now.
- Continue representation on the American Cancer Society's Kentucky Advisory Board.
- Collaborate and support Kentucky Cancer Program Plan to Be Tobacco Free.
- Collaborate and support Foundation for a Healthy Kentucky tobacco-free efforts.

- Continue providing education and resources to address tobacco use and negative health consequences in the community.
- Continue participation with coalitions/committees, (i.e., Shelby Service Providers Coalition and Shelby Prevention.)

Strategies – Alcohol and Drug Abuse

- Participate and support the Kentucky Hospital Association (KHA) and the Cabinet for Health and Family Services as part of the Kentucky Opioid Response Effort (KORE), to launch the Kentucky Statewide Opioid Stewardship (KY SOS) program.
- Participate and support the Kentucky Chamber of Commerce’s Opioid Task Force.
- Promote and support community support programs such as Alcoholics Anonymous (AA) and Narcotics Anonymous (NA).
- Identify opportunities to address alcohol and substance abuse.
- Support local groups and events that have a mission to prevent alcohol and substance use.
- Provide education about opiate addiction and resources for disposing of medications.
- Explore the feasibility of expanding telehealth opportunities for alcohol and drug counseling.

Access to Care

Goal: Address access to care for all patients.

Outcome Objective: To connect 80% of eligible patients and families with needed resources to ensure access to care is achieved.

Strategies

- Advocate for laws and policies that expand access to care (i.e., Medicaid expansion.)
- Partner with North Central District Health Department, Mercy Medical Clinic/Operation Care, Metro United Way to identify local health resources.
- Work with Conifer to enroll/counsel patients in health insurance, including spending time on education and assistance as it pertains to the Affordable Care Act and Medicaid expansion plans.
- Partner with Our Lady of Peace to bring Peace for Parents seminars for residents of Shelby County.
- Re-engineer discharge planning process to include primary care access.

Obesity

Goal: Address obesity, including wellness and exercise, through education and prevention.

Outcome Objective: To decrease obesity as measured by Kentucky Behavioral Risk Factor Surveillance Survey and to increase wellness and exercise as measured by County Health Rankings and Roadmaps. (KY ranks 7th for diabetes; 8th for obesity.)

Strategies will be accomplished through participation and collaboration with community partners. Information about available resources will be provided with each opportunity.

Strategies

- Advocate for initiatives that address the risk factors that lead to obesity and chronic disease in children.
- Promote healthy options for diet and exercise.
- Continue availability of diabetes education classes and individual counseling, along with medical nutrition therapy.
- Promote weight management, including bariatric surgery when indicated.
- Participate and support local groups and events that have a mission to promote healthy diet and exercise to prevent negative health outcomes.
- Provide community education about obesity and health risks related to obesity, through hospital-sponsored programs and/or events.
- Participate and support opportunities for the community to be physically active.

Next Steps

Jewish Hospital Shelbyville's Implementation Strategy report outlines the response to the community's health needs through June 30, 2022.

Jewish Hospital Shelbyville will carry out the implementation strategies through collaborative efforts with community leaders and organizations to address each health priority identified through the assessment process.

Periodic evaluation of goals/objectives for each identified priority will be conducted to assure that strategies are on track to be completed as described.

Jewish Hospital Shelbyville is committed to conducting another community health needs assessment and implementation strategy within three years.

Adoption/Approval

KentuckyOne Health's Board of Directors support the work that each facility completes to improve the health of their community. The Board of Directors approves Jewish Hospital Shelbyville's Implementation Strategy that has been developed to address the priorities of the most recent Community Health Needs Assessment.
